GTA REALTORS® RELEASE FEBRUARY STATS

TORONTO, MARCH 4, 2020 – In line with the forecast contained in the Toronto Regional Real Estate Board's recently released Market Year in Review and Outlook Report, TRREB President Michael Collins announced a very strong year-over-year sales and price growth in February 2020.

Greater Toronto Area REALTORS® reported 7,256 residential transactions through TRREB's MLS® System in February 2020, representing a 45.6 per cent increase compared to a 10-year sales low in February 2019. However, February 2020 sales were still below the 2017 record result. Year-over-year sales growth, for the GTA as a whole, was strongest for ground-oriented home types.

After preliminary seasonal adjustment, February 2020 sales also exhibited positive momentum, up by 14.8 per cent compared to January 2020.

New listings amounted to 10,613 in February 2020, a 7.9 per cent increase compared to February 2019. This moderate annual growth rate was much smaller than that reported for sales, which means market conditions tightened considerably over the past year.

As market conditions tightened over the past year, competition between buyers has clearly increased. This resulted in a further acceleration in year-over-year price growth in February. The MLS® Home Price Index Composite Benchmark was up by 10.2 per cent. The average selling price for all home types combined was up by 16.7 per cent to \$910,290. Double-digit average price growth was experienced for most major market segments, including detached houses and condominium apartments.
